Re: Letter of Recommendation for Kolby Ray

It is my privilege to write this letter of recommendation in support of Kolby Ray as he completes his Master's degree in Clinical Mental Health Counseling at Grand Canyon University. Kolby has been an intern at Sunrise Mental Health Services since November 2025, and I have had the opportunity to supervise his clinical work and observe his growth as an emerging counselor over that time.

From the start, Kolby has demonstrated an exceptional work ethic. He approaches each day with consistency, dependability, and a genuine sense of responsibility toward his clients and the agency. He builds strong therapeutic rapport with clients across a range of presenting concerns, and he goes above and beyond by actively researching interventions, tools, and resources tailored to each client's specific needs. That kind of initiative is not always easy to teach, and Kolby brings it naturally.

Clinically, Kolby has worked through some genuinely difficult cases and has handled them with professionalism, composure, and ethical awareness well beyond what I typically see at his stage of training. He is thoughtful in case conceptualization and open to consultation, which allows him to respond to complex presentations with humility and care rather than reactivity.

One of the things I have most enjoyed watching is Kolby's development across different therapeutic models. Rather than rigidly attaching to one approach, he has explored several modalities and tailored his interventions to what each client actually needs. In doing so, he has begun to identify the populations and frameworks he is most drawn to, and his clinical identity is taking shape in a thoughtful, intentional way.

Administratively, Kolby is reliable. His documentation is completed on time and is of high quality, and he is an excellent team member within the agency. He contributes positively to staff culture, collaborates well with colleagues, and represents Sunrise with professionalism in every interaction.

Kolby has the clinical instincts, work ethic, and character that the counseling profession needs. I recommend him without reservation for the completion of his Master's program and for the next phase of his professional journey. Please feel free to contact me if I can provide any additional information.

Sincerely,

Nichole Rammell, LCSW
