

ADDICTION TREATMENT FOR ADULTS GROUP

Counseling Group Type

Addiction Group

- Teach practical skills
- Interpersonal skills and problem solving
- Substance
 - Drugs, alcohol
- Process
 - Gambling, sex, porn

Why?

- Personal connection
- Addicts need help
- Support
- Research shows that skills groups benefit addicts more than other intervention type groups (Lopez et al., 2021).

Population Serving

- Persons with an addiction
- Ages 21 to 55
- Non-gender specific

Cultural Considerations

- View of addiction in different cultures
- Culturally appropriate language
- Non-labeling
- Gender roles
- Level of comfort

Number of Sessions & Participants

- Minimum of 4 sessions
- Tuckman's stages
- Corey's model
- Ideally 8 participants (Corey et al., 2018).
- Depending on experience level

Goals of the Group

- Build a support system
- How comfortable are they at the end of group?
- Develop coping/relapse prevention strategies
- Have they developed a relapse prevention plan?
- Enhance Self-awareness
- What are their triggers?

Goals of the Group

- Emotional/psychological well-being
- Are they in a healthier head space after group?
- Rebuild trust/relationships
- Have they apologized to those they have hurt?

Theoretical Approach: Cognitive Behavioral Therapy (CBT)

- Help identify and change negative thought/behavior patterns
- Replace addictive behavior with healthy option
- Coping strategies

Theoretical Approach: Person-Centered Therapy (PCT)

- Create supportive & non-judgmental environment
- Unconditional positive regard
- Focus on strengths to overcome weakness

Screening Questions: Demographical

- What is your name?
- How old are you?
- Where are you from?
- What is your addiction?
- How long have you been addicted?

Screening Questions: Non-Demographical (1-5)

1. Do you often find yourself reacting impulsively to cravings, stress, or emotions without thinking through your response?
2. Can you identify your personal triggers for your addictive behavior, or do you struggle to recognize them?
3. When you feel overwhelmed or anxious, do you have healthy coping strategies that you consistently use?
4. Do you find it difficult to manage emotions such as anger, frustration, or sadness without turning to your addiction?
5. Do you often feel stuck in situations where you don't know how to make positive choices for your recovery?

Screening Questions: Non-Demographical (6-10)

6. Have you tried to stop or reduce the behavior before but struggled because you didn't have the right tools or strategies?
7. Do you find it difficult to set boundaries with people who encourage or enable your addictive behavior?
8. Would you like to improve your ability to communicate effectively in relationships without feeling pressured or misunderstood?
9. Do you struggle with managing responsibilities like work, school, or family life due to disorganization or lack of structure?
10. Would you benefit from learning practical skills to handle stress, build routines, and stay on track with your recovery goals?
